## NinjaTrader Download & Setup Instructions

Click "Download" to start the NinjaTrader download process.

### Congratulation! Thank you for registering for the Free Simulated NinjaTrader Demo

Below you will find your licence key, Ninja Trader download, and an online tutorial of the trading software.

To access NinjaTrader, you must follow the instructions below:

- Click on the download link below, a pop-up window will appear.
- Check "Save this Program to disk" and click "OK".
- Save the program into your "Desktop".
- Once download is complete, click on "Open". (If "Open" is not available go to the desktop where you saved the file and double click on it).
- Follow the installation instructions on the screen.

**Important:** Also, you must first install the Microsoft .NET 2.0 Framework.

CURRENT RELEASE	SOFTWARE	RELEASE NOTES	DOCUMENTATION
Version 6.5.1000.13	<a href="#">Download</a>	<a href="#">Release Notes</a>	In Application/ <a href="#">Online</a>

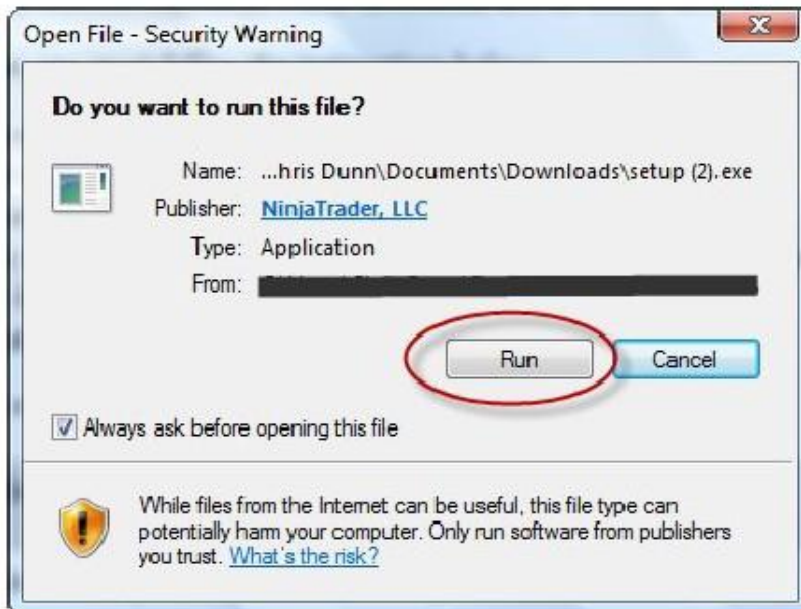

[Click here to view Help Guide with Video Tutorials](#). You can also hit F1 when NinjaTrader is open.

Once you have downloaded NinjaTrader, you will be prompted to enter a license key (below) the first time you log in.

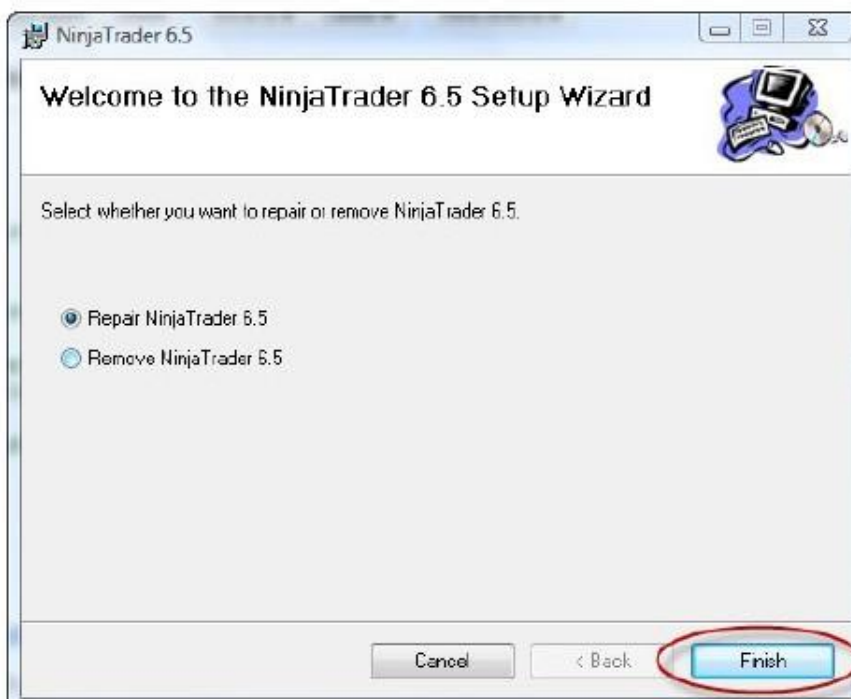

License key: @AMP-F82F-D583-40B1-AE74-B79F-705D-7712

Next step is to establish your real time streaming data connection from **Zen-Fire**.

Click "Run"

Click Install and click through until you reach "Finish"

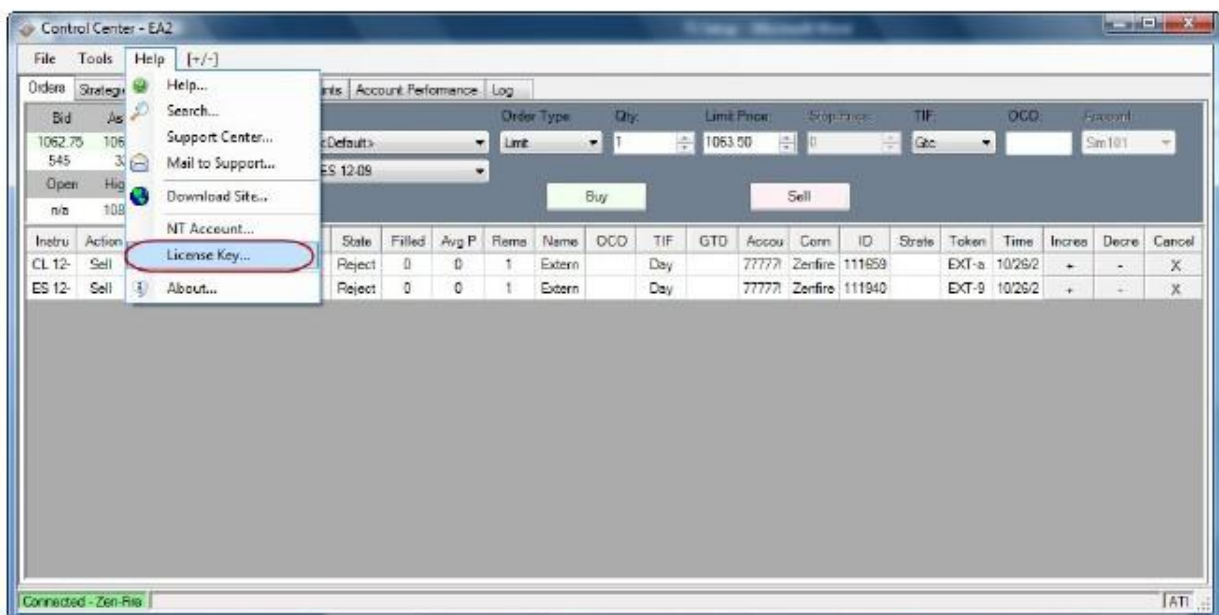

## NinjaTrader Download & Setup Instructions

Double click on the NinjaTrader icon on your desktop.

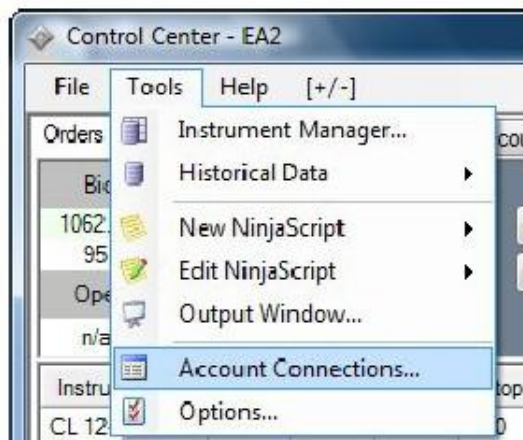

Go to Help, then License Key

Input the license key emailed to you by AMP Futures.

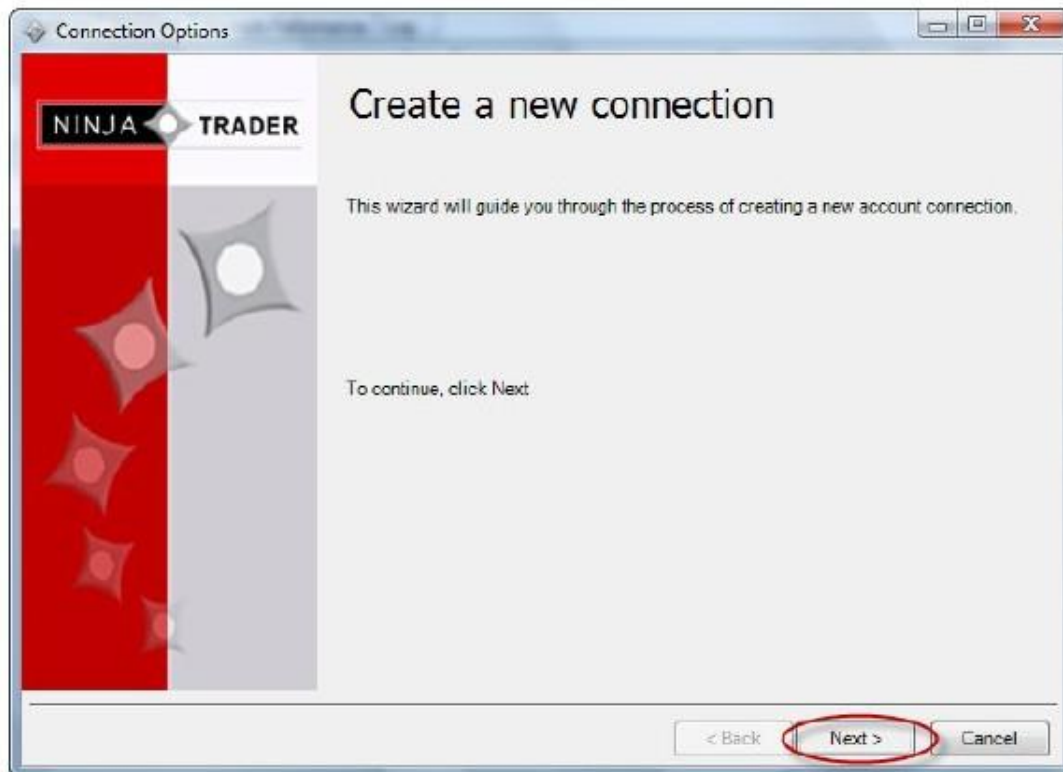

Go to Tools, then Account Connections.

Click Add.

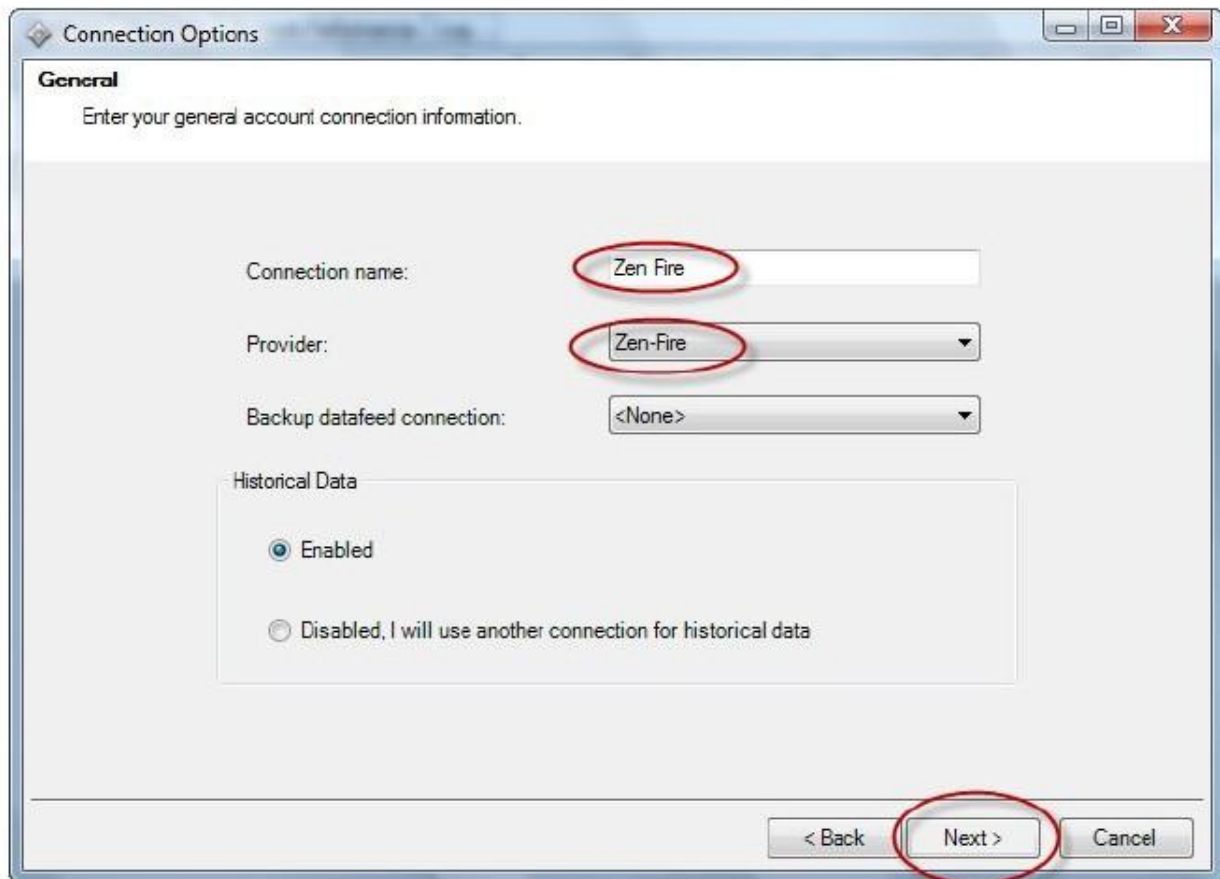

Click Next

## NinjaTrader Download & Setup Instructions

For "connection name", type: Zen Fire.  
For "provider", choose Zen-fire  
Then, click next

The image shows a screenshot of the "Connection Options" dialog box in NinjaTrader. The dialog has a title bar with standard Windows window controls. Inside, the "General" tab is selected, and the instruction "Enter your general account connection information." is displayed. There are three input fields: "Connection name:" with the text "Zen Fire" entered, "Provider:" with "Zen-Fire" selected from a dropdown menu, and "Backup datafeed connection:" with "<None>" selected. Below these is a "Historical Data" section with two radio buttons: "Enabled" (which is selected) and "Disabled, I will use another connection for historical data". At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel". Red circles are drawn around the "Zen Fire" text, the "Zen-Fire" dropdown, and the "Next >" button to highlight the required steps.
